# Benefits of Greentech 1250+ Wall Mount

Continuous Purification

Reduces Odors

Mounts to Save Space

Sized for Multiple Locations

Wide List of Applications

## Active Oxidation Improves Air Quality

Providing continuous air purification, this permanently mounted unit is perfect for spaces without HVAC duct access. Greentech 1250+ Wall Mount features the same active air purification technology developed and used by NASA.

Bipolar Ionization creates a plasma of electrical charges which removes allergens and other pathogens from the breathing space.

Photocatalytic oxidation (PCO) technology uses energy to activate a catalyst, turning moisture into products that continuously clean your space.

With a reactive surface area more than 16x greater than the competition, the Greentech 1250+ Wall Mount continuously purifies your space. The result is the reduction of allergens from pets, pollen, and smoke, as well as odors from mold, mildew, and more.
